

## **Airborne Contains Splenda**

**May 2006**

Lynn Mayer, MA, CNC

To All,

This article fresh off the Mercola newsletter might be of interest to you. I know many people use "Airborne", the highly touted cold remedy "created by a teacher". It turns out to contain Splenda, the chemicalized fake sugar that is creating health havoc - everything from severe physical distress to an inability to lose weight. Please inform yourself by reading the article about Splenda in drugs, then link on to the discussion about its use in Airborne.

Lynn highly recommends you read this health article: <http://www.mercola.com/display/router.aspx?docid=32963>. This article comes from <http://www.mercola.com>, one of the Web's most visited and trusted health information sites.

There are much safer ways to enhance your immune system.

Call me if you need guidance.

Lynn
